CashBuilder℠

Trucking companies need a plan to establish cash reserves for unplanned expenditures, such as taxes, insurance, tags and permits.

CashBuilder is an effortless plan that uses the cash in your checking account to earn rebates daily. Those rebates compound and grow, building your cash reserves.

How much can you earn with CashBuilder? Here's how it works...

Simply look at your bank statement and determine the average daily balance in your checking account – it's more than you think. Then use the estimator below to see what your cash reserves can be, without having to change your spending habits.

1) Enter your average daily check book balance $_____

2) Using the table to the right, find the factoring rate closest to yours, then enter the NBT CashBuilder Multiplier Number _____

3) Multiply line 1 by line 2 and discover your 5 year cash reserve balance $_____

Your Factoring Rate (%)	NBT CashBuilder Multiplier
1.50	1.44
1.75	1.83
2.00	2.28
2.25	2.80
2.5	3.40
2.75	4.09
3.00	4.89
3.5	6.88
4.00	9.52
4.50	13.03
5.00	17.68
