

Transparency

Transparency means nothing is hidden.

Thirty years ago, prior to forming National Bankers Trust (NBT), the founders factored their accounts receivable. Although factoring was invaluable to their business they found the process to be time consuming and difficult to manage.

This experience led to the creation of NBT, a 21st century factoring company exclusively for trucking. We believe every business owner should have access to their cash and the ability to disburse it 24/7. We call it transparency.

It's your money and you should know where it is and how it is working for you. NBT takes the guesswork out of factoring by letting you see, interact with and manage your cash in real-time, at your convenience.

Hundreds of trucking companies all across America enjoy factoring their accounts receivable with NBT. Whether you are a seasoned veteran or a start-up, we are dedicated to building you a customized factoring and reporting system that gives you all your information the way you want it, when you want it.

NBT is prepared to meet your needs today and take you wherever you want to grow.
